McIntosh

THE WORLD IN HI-FIDELITY

Stereo Power Amplifiers

Since 1949, no other company has done more to create superior sounding components than McIntosh. Hand built and made to last, a McIntosh amplifier is the sound of music itself!

McINTOSH MC-611 MONO BLOCK AMPLIFIER

600 Watts, Quad Balanced, Power Guard, Auto-Former Speaker Outputs.

McINTOSH MC-152 STEREO POWER AMPLIFIER

150 Watts per Channel, Power Guard, Sentry Monitor, Slim-style-perfect for smaller spaces.

McINTOSH MC-312 STEREO POWER AMPLIFIER

300 Watts per Channel, Power Guard, Sentry Monitor, Auto-Former speakers' outputs deliver full power at any speaker impedance.

McINTOSH MC-462 STEREO POWER AMPLIFIER

450 Watts per Channel, Quad-Balanced, Power Guard, Auto-Former Speaker Outputs.

McINTOSH MC-275VI VACUUM STEREO POWER AMPLIFIER

The most iconic tube amplifier ever created! 75 Watts per channel, Auto-Former Outputs.

McIntosh Stereo Preamplifiers

McIntosh delivers superior audio performance with patented electro-magnetic switching, for silent noise free operation. Because technology is always changing, Most Preamps in their line up include upgradeable DACS to prevent any type of obsolesce. Offering choices in both vacuum tube or solid-state, a McIntosh preamplifier will fit any listening style. Built in the USA since 1949!

McINTOSH C-22 STEREO VACUUM TUBE

A classic is reborn! A full vacuum tube design, with both MM and MC Phono Stages, adjustable cartridge loading on front panel. Silent Input switching

McINTOSH C-53 STEREO SOLID-STATE

Solid State Preamplifier, Eight Band Tone Controls, Both MM and MC Adjustable Phono Stages, Digital DAC Included (Upgradeable in the future), Silent Input switching

McINTOSH C-49 STEREO SOLID-STATE

Solid-State preamplifier with both MM and MC Phono Stages, Digital DAC Included (Upgradeable in the future), Silent Input Switching

McINTOSH C-2700 STEREO SOLID-STATE

Full vacuum tube design, Digital DA2 DAC Included (Upgradeable in the future), Twin Chassis design in a single unit, Silent Input Switching, VU Meters

WIDE LEADER TECHNOLOGY

McIntosh

Built to the same high standards as their separate components, McIntosh Integrated Amplifiers routinely out-perform separates from other companies. While retaining core technologies and performance carried over from their separates, McIntosh Integrated Amplifiers are built to last while delivering a musical performance that is second to none!

McIntosh Integrated Amplifiers

MA-252

100 Watts per Channel, Hybrid Vacuum Tube/Solid State design amplifier, all in a compact size chassis.

MA-8900

200 Watts per Channel, Auto-Former Outputs, Digital Inputs/USB Input

MA-352

200 Watts per channel, Hybrid Vacuum Tube/Solid State design, five band tone controls

MA-12000

Flagship Hybrid Vacuum tube/solid state design, 350 watts per channel, eight band tone controls, Upgraded DA2 DAC with Digital Inputs

McIntosh CD/SACD Players

McIntosh CD players capture every nuance of sound that the artist intended to deliver. Built to the same high standards as their audio components, McIntosh also supports Super Audio CD. Many audiophiles consider that SACD as the ONLY way to experience music! Ultra-High Grade 32-bit DAC's and superior laser pickups deliver every note of the performance.

McINTOSH MCD-350

CD/SACD Player Two Channel Balanced 32 Bit/DAC, RCA and XLR Balanced Outputs

McINTOSH MCD-600 CD/SACD PLAYER

CD/SACD Player, Quad-Balanced 32 Bit/DAC, Digital Inputs

McINTOSH MCD-MCT-500 CD-SACD TRANSPORT

Reference Grade CD/SACD Disc Transport; connect to any McIntosh Integrated, or Preamplifier that features a built-in DAC

McIntosh Stereo Receiver

McINTOSH MAC-7200

The McIntosh MAC-7200 delivers sound quality comparable to separate components, but in a one chassis design. With 200 Watts per channel The 7200 provides you with enough power and inputs to keep all of your music components sounding great. Including an ultra-high quality 32 Bit/192 KHz DAC for your Digital sources, this wonderful sounding tuner completes this amazing receiver.

GoldenEar Technology®
