# AUDIO VIDEO INTERIORS - CUSTOM MATCHED HOME THEATERS

*Bob Dacundo*

**D**id you ever wish you could watch "Jurassic Park" at home with all the impact you felt at the movie theater? The Stereo Shop is Connecticut's custom audio/video specialist, and we can put the dinosaurs in your house, effects and all, with no resulting damage! If you are interested in putting together a great home theater system, I will be very happy to help you make it happen. A Stereo Shop home theater is better than going to the movies, because you're actually in your own private screening room at home with friends and family. At any time you wish, you can watch your favorite movies or television shows with the kind of picture and sound that

put you right there in the action. I have many years' experience designing some of the finest installations around, and I will work closely with you, your interior designer, or architect in helping to create the perfect system for you. As a matter of fact, one of our home theater designs was featured recently in The Hartford Courant as the headliner in the "Living" section. We hope to reprint a portion of the article, by John Lacy, for our next issue of the store newsletter.

Now is a great time to consider an investment in home theater at the Stereo Shop. All **Mitsubishi** TVs and VCRs are available for no money down, no payments, and no interest for **AN ENTIRE YEAR** from the purchase date. This is a limited offer, so please take advantage of it while you

can. In addition, The Stereo Shop offers 90 days same as cash on all purchases with approved credit, and **FREE** delivery within a 25 mile radius! We also offer a five-year maintenance contract on your equipment, so you know that it's protected.

I have put together several custom-matched home theater systems featured on these pages, ready for your audition at The Stereo Shop. Call me or come in any time, and I will be happy to answer any questions you may have. I look forward to meeting you.

# CUSTOM-MATCHED MUSIC SYSTEMS AT THE STEREO SHOP

The Stereo Shop specializes in custom music systems that are perfectly matched, because any system is only as good as its weakest link. The most respected stereo advisers in the world can't help your system sound good unless they know how each component interacts with other equipment. That's why we at The Stereo Shop spend a lot of time evaluating components and matching them together into great sounding music systems.

In today's world of mass-marketed components and "matching rack systems" it is difficult to choose what might be the best system for you. The Stereo Shop always has the best prices on all of the lines we carry, and we have always offered highest-quality, "custom-matched" systems that

combine best sound and value. We have for over 35 years examined available brands of components, and have chosen only the products of those companies that meet our criteria for engineering, reliability, high-quality construction and best sound. We then match these components together for systems with absolute best sound and value in each price category.

Now is a great time to get a Stereo Shop music system! We offer 90 days same as cash on all purchases with approved credit, and FREE delivery on all systems within a 25 mile radius! We also offer a five-year maintenance contract on your equipment, so you know that it's protected.

Come to The Stereo Shop and we'll be happy to show you our custom matched systems and how we can give you the best sound and value at the price. We have the knowledge, experience and facilities to make sure you will always be satisfied.

This has been the Stereo Shop's philosophy all along: to help you get maximum enjoyment from your music, we design systems that fit your needs and are here to help you again when your needs change. The same attention is given to making sure the equipment is the best at any level and that service before, during and after the sale is also the best. The systems we offer sound better, look better and last longer. Come in and audition any of the fine systems here at The Stereo Shop, including the featured custom-matched systems here in the newsletter. Remember, equipment only sounds as good as the rest of the system they are part of - and they will sound good if it's a Stereo Shop system!

## **GOOD** - Bookshelf Music System

**Yamaha RX-485 Receiver** Great sounding, and with plenty of power to spare at 65 watts per channel, this is a receiver you'll have for a long time. Take control of your music and your entire system with the remote. The inputs, aside from the built-in radio tuner, include CD, phono and two tape monitors. It even has a sleep timer built-in! **Reg. \$299.00**

**Boston Acoustics CR-8 Speakers** One of the brand-new shielded hifi/home theater bookshelf speakers from **Boston Acoustics**, the **CR-8** takes up less space but delivers extraordinary performance from its 7" woofer and 1" tweeter. The new **CR** series packs the dynamics, imaging and controlled bass response you expect of the finest speakers into small, solid cabinets that fit anywhere. **Reg. \$399.00**

**Yamaha CDC-645 Compact Disc Changer** Great features include Play Xchange, the ability to change up to four compact discs while the fifth is playing! High technology combines excellent sound and tremendous convenience. If you want to switch CDs without interrupting the music, go ahead! Play continuous music programmed any way you like for hours. **Reg. \$299.00**

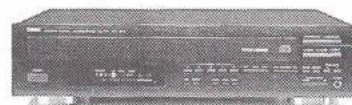

Save \$93.00!! **THE RIGHT COMPONENTS AT THE RIGHT PRICE:** \$845.00 **Reg. \$997.00**

## **BEST!** "High-End" Sound, Great Price!

**Adcom GTP-350 Preamp/Tuner and GFA-535II Power Amp** If you want really good sound but don't want to fool around with a lot of separate components, **Adcom** is the perfect choice. They put the convenience of a receiver into two separate units for best sound. The **GTP-350** with its slim design can be placed anywhere, and the **GFA-535II** provides 60 watts per channel of "high-end" power. **Reg. \$725.00**

**B&W DM-620 Speakers** From England, **B&W** is one of the finest speaker makers in the world. The **DM-620's** are dramatically musical, floor-standing "tower" designs, with an 8" midrange/bass driver, 8" passive radiator and a 1" metal dome tweeter. Each driver is mounted into a molded baffle for cleaner sound. You will enter a whole new level of "high-end" music listening with these sophisticated speakers! **Reg. \$800.00**

**California Audio Labs DX-1 Compact Disc Player** The perfect audiophile compact disc player in this price range, with the reputation of **California Audio Labs**, American makers of some of the best compact disc players in the world. A rock-solid component with "high-end sound!" **Reg. \$595.00**

Save \$225.00!! **THE RIGHT COMPONENTS AT THE RIGHT PRICE:** \$1,895.00 **Reg. \$2,120.00**

## The Right Components at the Right Price!

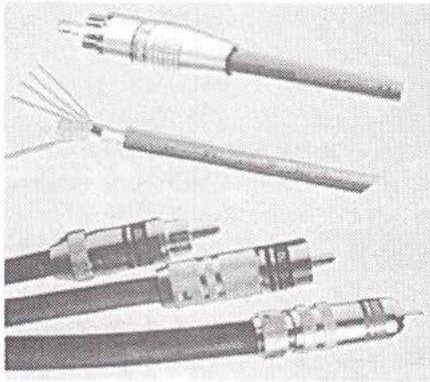

You will see that slogan here at The Stereo Shop all the time, now. That's because it's a simple message that conveys a very important idea that we want to emphasize: we provide the best equipment at the best prices. And with all that, we give you the best attention, advice and service. Our staff has the experience and knowledge that really makes the difference in choosing your home entertainment components. The Stereo Shop is staffed by music lovers, musicians and technicians, your personal guides to deciding for yourself what you should be looking for in a stereo or entertainment system. And our in-house service department ensures that your equipment, should it ever need it, will receive first-rate attention.

Great equipment does not have to be expensive. The Stereo Shop can provide excellent stereo systems for as little as \$750.00 and surround sound systems for as little as \$1,000 that will outperform similarly priced systems elsewhere. Remember, we will not be undersold elsewhere on the equipment we carry. And when buying good equipment, remember the need for good service. The Stereo Shop has been here for 35 years, and you have always come first!

If your budget is tight, maximum value can be achieved by selecting preowned components. The Stereo Shop has the area's only high-quality pre-owned audio department. Our customers trade in some excellent equipment for newer gear. Components that have been fully reconditioned and guaranteed right here in the store can enable you to own reliable, high performance equipment far below the prices of lesser goods that are new.

## The "Hidden" Components - Wire and Cable

Your system is really only as good as the cables connecting your electronic components together and the wire between your amplifier and speakers.

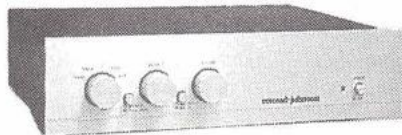

WIRE

The "zip cord" and cheap phono cables that many people have used for years just can't convey all the complex information that travels between components. Good specialty cables and wire, like those from **AudioQuest** and **Tributaries**, are crucial to making your system sound its best. I will be happy to show you the varieties of cable and wire we offer, and what will work best for your system.

## Conrad-Johnson "High End" Tube Components

We are proud to be the exclusive Connecticut representative for the excellent **Conrad-Johnson** components.

CONRAD-JOHNSON PU-10A

These are hand-crafted instruments for the dedicated music lover. **Conrad-Johnson** offers superb tube preamps, power amplifiers and digital to analog converters for a musical experience

conventional transistor equipment just can't provide. I will be very happy to demonstrate these fine products to you anytime so that you can hear music at the very highest level!

## Clean Your Components!

At the risk of sounding like your dentist, I can still only say - "Clean them! Clean them!" It really makes your equipment perform at its best! Most repairs here at the store involve complete and detailed cleaning of the chassis and all controls because most component problems are caused by airborne pollution. If you value your equipment, have it maintained periodically at The Stereo Shop before it requires extensive repair.

## Five-Year Maintenance Contracts

If you are buying new equipment, it pays to obtain a five-year maintenance contract from The Stereo Shop. For five years, we will repair or replace defec-

MAINTENANCE CONTRACT

tive parts at no charge. In addition, by appointment we will maintain your components yearly by cleaning them thoroughly at no charge. Please ask anyone here at the store about them. They are an excellent protection of your investment.

*Richard Cox*

Until Next Time,  
Richard Cox  
523-7250

# STEREO SHOP SPRING SALE

# CANTON LOUDSPEAKERS

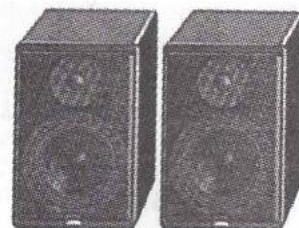

## HANDCRAFTED IN GERMANY

**Canton Fonissimo System** (New, white)  
Right Price: \$649.00 **Save \$180.00!**

Canton of Germany is world-famous for handcrafted speaker systems and superb sound. For many years, we have offered their classic satellite speaker system, the **Plus S/PlusC**, with the biggest and best sound of any system we've heard for its size. And brand-new from **Canton** is the revolutionary **Fonissimo**, impossibly small with incredibly rich bass, and unheard-of sound for its size!

Both Canton systems can be expanded for home theater by adding rear speakers and a center channel.

**Canton Karat 920** (Cherry)  
Right Price: \$599.00 **Save \$151.00!**

Canton bookshelf speakers are equally beautiful and functional. Compact enough to integrate into any living space and yet large enough to produce the full spectrum of orchestral sound, the **Karat 920** is finished in gorgeous cherry. This special speaker system exemplifies the the quality, performance and longevity of **Canton** speakers. **Canton Karat 920** (cherry) - **Right Price: \$599.00 pair - Save \$151.00!**
